Dear Chad,

We want to thank you for giving us the opportunity to own our dream house! We absolutely love every aspect of the home. Every last detail of the home, from the lot to the last finishing touch, is perfect. We especially appreciate the time and patience you showed us as we were deciding on the lot and the floor plan that was going to eventually lead to our wonderful home. We never imagined that building a new house would be so easy. You and your staff made this process virtually effortless!

The co-construct program was very easy and it made the entire process virtually stress free. Everything is very well organized and everything seemed to fall right into place. When we had any questions, Michelle was always kind and efficient with her answers. We couldn't have asked for better.

The K & L finishing crew were outstanding! Clint had everything well organized and was always available when we had questions. The staff always took the time to answer questions and the high quality of their workmanship is unmatched.

Simply stated K & L Homes did a terrific job on our home! We honestly loved every minute of the process! We ***highly*** recommend K & L Homes to anyone interested in building a new home!

Sincerely,

*Kevin and Shannon Chaussee*
